WORK GOING FORWORD AT SETHERLAND POTASH PLANT

Mr. Wallace E. Porter, Managing Trustee of the Republic Chemical Works, was in town Sanday and left almost immediately for Denver with Chief Engineer McCalman to execute contracts which have been pending for several weeks on the furnishing of boilers and other equipment for the

The company now plans to spend considerable more than \$500,000 as its initial investment in its plant west of Sutherland and to help Mr. Porter carry the responsibility the Stock-Holders have elected a Board of Trustees, the personnel of which makes the future of this concern an assured success. Mr. M. B. Cottrell of Chicago, a director of the Drexel State Bank of that city and president of the State Savings Bank of Logan, Iowa, is Treasurer, Mr. W. H. Thompson of Grand Island is Counsel; W. H. Guild Assistant General Manager of the Union Pacific Railway, and Ed. E. Wise, vice-president of Wilke-Mitchell Co., Omaha, and president of the Retail Grocers Assn. of Nebraska are

Last week Engineer McCaiman made a trip to the lukes out north and left Engineer George M. Ranney up there with a surveying party to locate the various small pumping plants on the lakes and the small pipe lines from same to the main lines.

Three routes have been surveyed as the location of this main pipe line which will carry without any pumping 1,000,000 gallon per day of potash brine from the lakes to the plant. Choice of these three routes will prob ably be made soon so work can be started constructing the road which must be built preparatory to distributing the pipe this winter.

Carloads of pipe cement and lumber have been on the way for more than two weeks and the foundation trenches are dug for the walls of the Potash warehouse ready for concreting as soon as these materials arrive.

A temporary office building and a bunk house and eating house for the men have been built and Mrs. O'Connor and two daughters installed in the latter ready to satisfy any man on the eating and of the came. Engineer McCalman says he fully expects to keep at work right through the winter regardless of the weather conditions in order to get the plant in operation early in the spring providing of course he can get the men to help him .- Sutherland Courier.

Must Not Hoard Foods. With the release of the sugar restrictions, dealers and housewives are no longer held to the four pounds per month regulation. However, dealers are limited to buying their requirements for 60 days while householders can not buy more than a 60 day supply. The hoarding law prevents laying up of supplies.

The rules regarding hoarding and profiteering will be enforced even nore stringently than heretofore says Food Admiistrator Wattles. Anyone caught with a greater supply than they are entitled to will have to pay the penalty and there will be no leniency shown

The days are not long enough, it seems, for you to attend to your multiplied duties. You must adopt more short-cuts.

Most tiresome, time-con suming and disagreeable is the weekly cleaning day. Let it be largely replaced by a few moments daily use of a HOOVER.

Then dirt will never accumulate in your rugs and carpets. Housecleaning will be much simplified.

Though THE HOOVER glides so lightly that a threeyear-old can use it, it beats out imbedded grit, sweeps up stubbornest-clinging litter of all kinds and dustlessly with draws the dirt thus dislodg-
